— Spectrophotometry of the outer corona ... ..	413
<i>Armagh Observatory</i> , Report of proceedings of ... ..	171
<i>Arp, Halton C. and David S. Evans</i> , p Velorum and stellar evolution ... ..	547
Associates deceased ... ..	127
Associates elected ... ..	242
<b>Astrophysics</b> : Boyle's Law and gravitational instability, <i>W. B. Bomor</i> ... ..	351
— Finite atmospheres with isotropic scattering. II. Increase of line strength to the limb, <i>I. W. Busbridge</i> ... ..	304
— The dissipation of magnetic energy in an ionized gas, <i>T. G. Cowling</i> ... ..	114
— A model atmosphere for the solar limb based on continuum observations, <i>B. E. J. Pagel</i> ... ..	608
— Solar atmospheric heating by hydromagnetic waves, <i>J. H. Piddington</i> ... ..	314
Auditors' Report for 1955 ... ..	133
<i>Baldwin, J. E., F. G. Smith, P. A. O'Brien and</i> , The radio source in the direction of the galactic centre ... ..	282
<i>Barker, R.</i> , Report of his observatory (Cheshunt) ... ..	216
<i>Batten, Alan H.</i> , A study of the four eclipsing binary systems: RW Monocerotis, RW Geminorum, U Coronae Borealis and TY Pegasi ... ..	552
<i>Bishop, R. O.</i> , Chromospheric emission and its dependence on latitude ... ..	593
<i>Blackwell, D. E.</i> , A study of the outer corona from a high altitude aircraft at the eclipse of 1954 June 30. II. Electron densities in the outer corona and zodiacal light regions ... ..	56
— Observations from an aircraft of the zodiacal light at small elongations ... ..	365
— and <i>D. W. Dechirst</i> , An examination of the observational evidence for the accretion theory of the solar corona ... ..	637
<i>Bomor, W. B.</i> , Boyle's Law and gravitational instability ... ..	351
<i>Bray, R. J.</i> , The centre-limb variation of the sodium D line intensities ... ..	395
<i>Burr, E. J., S. C. B. Gascoigne and</i> , Surface photometry of the globular clusters 47 Tucanae and Omega Centauri ... ..	570
<i>Busbridge, I. W.</i> , Finite atmospheres with isotropic scattering. II. Increase of line strength to the limb ... ..	304
<i>Buscombe, William</i> , The orbit of the spectroscopic binary HD 170523 ... ..	262
<i>Cambridge, Cavendish Laboratory</i> , Report of proceedings of ... ..	176
<i>Cambridge Observatories</i> , Report of proceedings of ... ..	171
<i>Canterbury University Observatory, N.Z.</i> , Report of proceedings of ... ..	215
<i>Cape of Good Hope, Royal Observatory</i> , Report of proceedings of ... ..	167
<i>Carter Observatory, Wellington, N.Z.</i> , Report of proceedings of ... ..	214
<i>Christchurch, N.Z., Geophysical Observatory</i> , Report of proceedings of ... ..	214
<b>Comets</b> : Report on progress of astronomy, <i>J. G. Porter</i> ... ..	220
<i>Commonwealth Observatory, Mount Stromlo</i> , Report of proceedings of ... ..	208
<i>Conway, R. G. and P. A. O'Brien</i> , The distribution of brightness at metre wave-lengths across the Sun's disk ... ..	386
<i>Costain, C. H., B. Elsmore and G. R. Whitfield</i> , Radio observations of a lunar occultation of the Crab Nebula ... ..	380
<i>Cowling T. G.</i> , The dissipation of magnetic energy in an ionized gas ... ..	114
<i>Das, A. K.</i> , Solar activity: Prominences (Report on progress of astronomy) ... ..	219
<i>David Dunlop Observatory</i> , Report of proceedings of ... ..	194
<i>Davies, J. G., J. C. Gill and</i> , A radio echo method of meteor orbit determination ... ..	105
<i>Davies, R. D.</i> , The relation between interstellar gas, dust and the emission from neutral hydrogen at 21 cm ... ..	443
<i>Dechirst, D. W., D. E. Blackwell and</i> , An examination of the observational evidence for the accretion theory of the solar corona ... ..	637
<i>Dodson, Helen W. and E. Ruth Hedeman</i> , Detailed study of an active solar region, 1954 August 20-27 ... ..	428
<i>Dunsink Observatory</i> , Report of proceedings of ... ..	190
<b>Earth</b> : The damping of the variation of latitude, <i>Harold Jeffreys</i> ... ..	362
— The Earth's Thermal History (Presidential Address), <i>Harold Jeffreys</i> ... ..	231
<b>Eclipses and Occultations</b> : The Moon's observed latitude from occultations 1932-1953, <i>C. A. Murray</i> ... ..	477

<b>Eclipses and Occultations:</b> Radio observations of a lunar occultation of the Crab Nebula, <i>C. H. Costain, B. Elmore and G. R. Whitfield</i> ...	380
<i>Edinburgh, Royal Observatory</i> , Report of proceedings of ...	165
<i>Ellison, M. A.</i> , A study of a blow-off prominence (1956 May 18) ...	624
— and <i>J. H. Reid</i> , The spectrum of quiescent prominences (summary) ...	699
<i>Elmore, B., C. H. Costain and G. R. Whitfield</i> , Radio observations of a lunar occultation of the Crab Nebula ...	380
<b>Errata</b> ...	700
<i>Evans, David S.</i> , The system of $\rho$ Velorum ...	537
— The sense of rotation of NGC 253 ...	659
— <i>Halton C. Arp</i> and, $\rho$ Velorum and stellar evolution ...	547
<i>Feast, M. W.</i> , A note on the spectra of some variable stars in the Magellanic Clouds ...	583
— and <i>A. D. Thackeray</i> , Red super-supergiants in the Large Magellanic Cloud ...	587
<b>Fellows deceased</b> ...	127
— elected ...	1, 125, 241, 242, 361, 476, 591, 592
<i>Gascoigne, S. C. B. and E. J. Burr</i> , Surface photometry of the globular clusters 47 Tucanae and Omega Centauri ...	570
<i>Geake, J. E. and W. L. Wilcock</i> , An astronomical photoelectric spectrophotometer ...	561
<b>Gifts to the General Funds and Property of the Society</b> ...	139
— to the Library ...	141
— See also Presents announced.	
<i>Gilbert, C.</i> , The gravitational field of a star in the expanding universe ...	678
— Dirac's cosmology and the general theory of relativity ...	684
<i>Gill, J. C. and J. G. Davies</i> , A radio echo method of meteor orbit determination ...	105
<i>Glasgow, University Observatory</i> , Report of proceedings of ...	178
<i>Godlee Observatory, Manchester</i> , Report of proceedings of ...	215
<b>Gold Medal</b> , Announcement of award to Professor T. G. Cowling ...	1
— Address on award of ...	229
— Presentation ...	125
<i>Greenwich, Royal Observatory</i> , Mean daily areas and heliographic latitudes of sunspots in the year 1955 ...	486
— Report of proceedings of ...	162
<i>Hart, A. B.</i> , Motions in the Sun at the photospheric level. VI. Large scale motions in the equatorial region ...	38
— VII. Vertical distribution in the equatorial velocity field ...	489
<i>Haselgrove, C. B. and F. Hoyle</i> , A mathematical discussion of the problem of stellar evolution, with reference to the use of an automatic digital computer ...	515
— A preliminary determination of the age of type II stars ...	527
<i>Haughton, J. L.</i> , Report of his observatory (Charmouth) ...	216
<i>Hawkins, G. S.</i> , A radio echo survey of sporadic meteor radiants ...	92
<i>Heath, M. B. B.</i> , Report of his observatory (Kingsteignton) ...	216
<i>Hedeman, E. Ruth, Helen W. Dodson and</i> , Detailed study of the development of an active solar region, 1954 August 20-27 ...	428
<i>Heintz, W. D.</i> , Six visual double star orbits ...	243
— Micrometer observations of double stars ...	248
<i>Herget, Paul</i> , Minor Planets (Report on progress of astronomy) ...	218
<i>Holborn, F. M.</i> , Report of his observatory ...	216
<i>Holmberg, E. R. R.</i> , A new explanation of the recession of the nebulae ...	691
<i>Hoyle, F., C. B. Haselgrove and</i> , A mathematical discussion of the problem of stellar evolution, with reference to the use of an automatic digital computer ...	515
— A preliminary determination of the age of type II stars ...	527
<b>Instruments:</b> An astronomical photoelectric spectrophotometer, <i>J. E. Geake and W. L. Wilcock</i> ...	561
<b>Interstellar Matter:</b> The relation between interstellar gas, dust and the emission from neutral hydrogen at 21 cm, <i>R. D. Davies</i> ...	443
<b>Investments</b> ...	138
<i>Jefferies, J. T.</i> , The $D_3$ emission of prominences ...	629
<i>Jeffreys, Harold</i> , Address on the award of the Gold Medal to Professor T. G. Cowling ...	229
— (Presidential address) The Earth's thermal history ...	231
— The damping of the variation of latitude ...	362
<i>Jodrell Bank Experimental Station</i> , Report of proceedings of ...	181
<i>Johannesburg, Union Observatory</i> , Report of proceedings of ...	199
<b>Junior Members elected</b> ...	241, 361, 591
<i>Kinman, T. D.</i> , An attempt to detect deuterium in the solar atmosphere ...	77
